Apollo Safety to exhibit at 9th annual NE Buildings and Facilities Management Show & Conference, June 18-19

DATELINE: BOSTON, MA and FALL RIVER, MASSACHUSETTS...

Apollo Safety, Inc. a veteran-owned, Fall River, Mass.-based company specializing in safety products and services, recently announced it will be an exhibitor at the upcoming Northeast Buildings and Facilities Management Show and Conference. Apollo Safety will be manning booth 473 during the two-day event, which will be held on June 18 and 19 at the Boston Convention Center, 415 Summer Street in Boston.

The Apollo Safety booth will feature gas detection systems from several manufacturers as well as the Red Lion Control Panel, a brand of control panels that can be configured to monitor gas detection equipment, up to 64 different channels.

“The beauty of the Red Lion is that it is compatible with a number of brands of equipment—e.g. Oldham gas, RKI Instruments, and MSA, to name a few. All can all be controlled by the Red Lion panel once configured,” said John V. Carvalho III.

Other features of the Red Lion include:

- Remote Viewing & Control from lobby location or from control room.
- Compatible with building management systems facilitating integration to HVAC, security, fire, or PLC.
- Remotely activate “Automated” or “Emergency Shut Off” in gas cabinets or entire lab emergency shut down.
- Fully programmable features such as, individual alarm set points, alarm delays, alarm delay overrides, etc.
- Intuitive “Touch Panel” allows for quick learning and easy navigation to all programmable features.
- Viewing from any Internet Connection, or desktop PC.

““The advances in gas detection systems and monitoring capabilities, particularly the Red Lion touch panel controls and wireless technologies, make it easier and far more effective to monitor gas levels in multiple buildings.” said John V. Carvalho III, president of Apollo Safety, Inc. “Our presence at the conference is to showcase these advances, particularly the Red Lion, and how it is critical to have an updated system to offer the appropriate amount of protection and safety for employees, tenants and visitors to any building or facility.”

Apollo Safety sells and installs a wide variety of portable and stationary gas detection systems, including name brands like Honeywell, Industrial Scientific, RAE Systems, RKI, and GMI. In addition, Apollo Safety also provides training and 24/7 service. All Apollo Safety technicians are factory-trained and certified. In addition, Apollo offers its own training program, with five levels of certification.

About Apollo Safety

Apollo Safety has been serving the safety industry since 1995. Apollo Safety specializes in gas detection products and services for portable and stationary systems. That includes gas detector sales and support for most major brands of gas detection device manufacturers. Apollo Safety also provides service in a "state of the art" in-house service center, as well as offering on-site support with factory-trained technicians for both portable and stationary gas detection systems.

Veteran-owned, Apollo Safety, Inc. is trusted by facilities managers, building owners, landlords, universities, hotels, institutions, and government operations. Apollo Safety is a member of the National Safety Council, Massachusetts Safety Council, National Fire Protection Association (NFPA), Rhode Island Fire Chiefs Association (RIAFC) and the Fire Chiefs Association of Massachusetts (FCAM).

Apollo Safety's corporate headquarters is located at 57 Walnut Street in Fall River, Massachusetts. For more information on Apollo Safety products and services, please call 800-813-5408 or visit www.apollosafetyproducts.net.
